The amendment filed May 9, 2005 has been entered and made of record as paper no. 0505.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 20 stand rejected under 35 U.S.C. 102(b) as being anticipated by Hirahara et al (US 2002/0024129 A1).

Hirahara discloses a stacked semiconductor module comprising a first upper switching element having a first semiconductor chip (18), a first top electrode (15), a first bottom electrode including a first wiring plate (54), and a first control electrode (21); a first lower switching element having second semiconductor chip (11), a second top electrode (15), a second bottom electrode (3), and a second control electrode (10); wiring means (8); and a means for press-contact vertically a laminated structure. Note the teaching of “pressure welding” in paragraph [0066].

Claims 1, 3-12, 14-18, and 21 are allowed.

Applicant's arguments filed May 9, 2005 have been fully considered but they are not persuasive.

Applicants argue that “ the Examiner has not considered Applicants' disclosure in determining the recited structure for performing the claimed function”. Although the claims are interpreted in light of the specification, limitations from the specification are not read into the claims. See *In re Van Geuns*, 988 F.2d 1181, 26 USPQ2d 1057 (Fed.

Cir. 1993). Hirahara inherently shows the "means for pressing-contact" in paragraph [0066]. Applicants failed to prove otherwise.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
